Who are we

We are a UK-based project management consultancy, established in 2019.

We help clients deliver complex, highly regulated engineering and construction projects by providing high-calibre professionals and a dependable mobilisation process so you can scale capability quickly, without compromising quality.

Whether you need short-term support or longer-term embedded expertise, we supply vetted, competency-assessed specialists to maintain delivery, continuity and performance.

Below is a selection of assignments we regularly provide—please [contact us](#) if you require specialist support beyond this list.

- **Project Managers**
- **Quantity Surveyors**
- **Estimators**
- **Project Planners**
- **Project Controls Managers**
- **Programme Managers**
- **Expert witnesses**
- **Construction Managers**
- **Construction Supervisors**
- **Completion Engineers**
- **Document Controllers**
- **Quality Assurance Engineers**
- **Project Administration / Support**

What Sectors do we operate in

We specialise in management of highly regulated and complex engineering projects. We are active across multiple sectors

- **Industrial - Process Engineering (Pharma, food processing, Oil and Gas)**
- **Nuclear & Defence**
- **Residential, Commercial, Infrastructure & Rail**
- **Transport (Road & Rail)**
- **Utilities (Power & Water)**

Our Services

Contract Services

- Define assignment scope and delivery schedule based on your requirements.
- Source, shortlist, interview, and competency-assess specialists.
- Manage onboarding and compliance (certifications, right-to-work, accreditations as required).
- Single-agreement engagement with consolidated timesheets and payments.
- Dedicated point of contact and escalation route.

Managed Resource Services

- Everything included within our contract service plus active governance & performance management.
- Aligned to your governance and reporting requirements to ensure adherence.
- Monthly performance reviews and continuous improvement actions.
- Ongoing quality assurance and adherence to agreed standards.
- Support the client with reporting, controls cadence, and escalation management.

Team Resourcing

- Best for: Clients requiring multiple embedded management resources to help them deliver projects, we set out roles / responsibilities and interactions.
- We provide a construction management/ commissioning leadership team (project management, construction management, supervisors, planners, quality, document control—scaled to project need)
- Define scope, mobilisation plan, and delivery cadence.
- Governance, reporting, and performance reviews throughout the assignment.
- Dedicated escalation route and continuity planning to minimise disruption.

Why Are We Different

LED BY PROFESSIONALS WITH REAL INDUSTRY EXPERIENCE

with over a decade of experience in the industry, we have a comprehensive understanding of the assignments that are required. We handpick the best teams for successful project delivery.

MANAGED SERVICE, NOT RECRUITMENT AGENCY

Following a short requirements brief, we develop the assignment scope and proposal, arrange introductions, and manage mobilisation. Clients are typically only required to provide final approval.

LONG TERM RELATIONSHIPS

We see our clients as partners, not suppliers. We will carry out monthly reviews and act as a point of escalation. We enjoy the team work and pursuit of a common goal with our clients.

Work with us

As experienced professionals, we understand the importance of moving quickly. We aim to have a team fully mobilised on your project within **4-6 weeks**.

Start the process now by emailing an enquiry to us or scheduling a call. Click one of the links below.

Our Guarantee

Our goal is consistently high client satisfaction. We aim for exceptional client outcomes.

Right first time, everytime

Every resource we place is screened for performance and assignment fitness. We verify qualifications, certifications, and references, and ensure required accreditations are in place prior to mobilisation.

Problems solved

We take a solutions-led approach. We work collaboratively with your team to identify issues early, mitigate risk, and support delivery outcomes.

Resource Continuity

We understand the impact of resource turnover on time and cost-critical projects. We prioritise continuity by placing reliable resources. We monitor resource availability to minimise disruption and maintain momentum.

Our Portfolio

Below is a selection of some of the organisations we have supported on recent and ongoing programmes. See [our website](#) for more details.

ALMAC GROUP - Pharmaceutical
Planex Controls provided support across a portfolio of projects totalling £400 million.
